Good afternoon Ms. Blackledge,

Thank you for your letter and requesting our review of sampling results for chemicals at the Sky Valley Educational Center in Monroe, Washington. Our team at the Department of Health has review the information and in the attached letter provides our response and commitment to continue working with the Snohomish Health District and the school to assess the need for further cleaning, or sampling.

Thank you

Clark Halvorson

Subject: Dioxin Levels at School with Past PCB Contamination (Data Attached)

Please find attached a cover letter and toxicology letter with data enclosed regarding dioxin levels at the Sky Valley Education Center in Monroe, Washington. These results suggest a potential health and safety hazard for the Sky Valley school, as well as other schools that have had PCB contamination. The enclosed information relates to these issues.
